DETAILED ACTION

Allowable Subject Matter

1. Claims 10 and 12-18 allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 10 and 12-18 are allowed because none of the prior art of record discloses or suggests a reserve energy accumulator to which a charging voltage higher than the at least one internal normal d.c. voltage is applied by the high-voltage vehicle electric system during regular operation, wherein in regular operation the motor vehicle electric system supply voltage is applied directly by the high-voltage vehicle electric system via a diode as the charging voltage to the reserve energy accumulator and is also applied via a diode as an input direct voltage to the step-down regulator, and wherein the reserve voltage supplied by the reserve energy accumulator is applied directly as input direct voltage to the at least one step-down regulator in an emergency, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Remarks, filed October 15, 2007, with respect to the objection to claim 10 and the rejections of claims 10 and 12-18 under 35 U.S.C. 103(a)

have been fully considered and are persuasive. The objection to claim 10 and rejections of claims 10 and 12-18 have been withdrawn.
